

How to Work Effectively From Home. The work-from-home job just got a big push globally. But even before this increasing numbers of people have been saying goodbye to their onerous commute to work. Thanks to ever-evolving technologies like Skype, Facetime, Slack, Zoom, Google Hangouts, authenticator apps and cloud computing - not to mention texting and email - it's no longer necessary to be in an office full-time to be a productive member of the team. In fact, many kinds of work can be done just as effectively, if not more so, from a home office. As appealing as remote work is to employees, it wouldn't be such a strong trend if employers didn't also recognize benefits from their side of the desk. Companies with work-from-anywhere policies can boost employee productivity, reduce turnover and lower organizational costs.

Whether you're working remotely one day per week (or more) or full-time—by choice or because of a health situation or weather event—it's important to ensure that you are set up to be productive. Multibrackets has many tools to support your everyday work-from-home.

M VESA DESKMOUNT HD DUAL VERTICAL WIDE 32"-50" STACKING DESKTOP MONITORS INCREASES EFFICIENCY & SAVES SPACE

While desk widths at home often are scarce, ceilings are (so far) staying put. So while you may not have the room to put two or three displays side by side at home, there's almost always ample room to go up, into what is otherwise unused space.

With the new large size widescreen curved monitors hitting the market Multibrackets mounting systems can handle stacked displays as large as twin 50 inch. curved monitors, creating a vast, immersive working canvas.

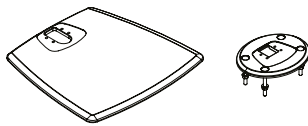

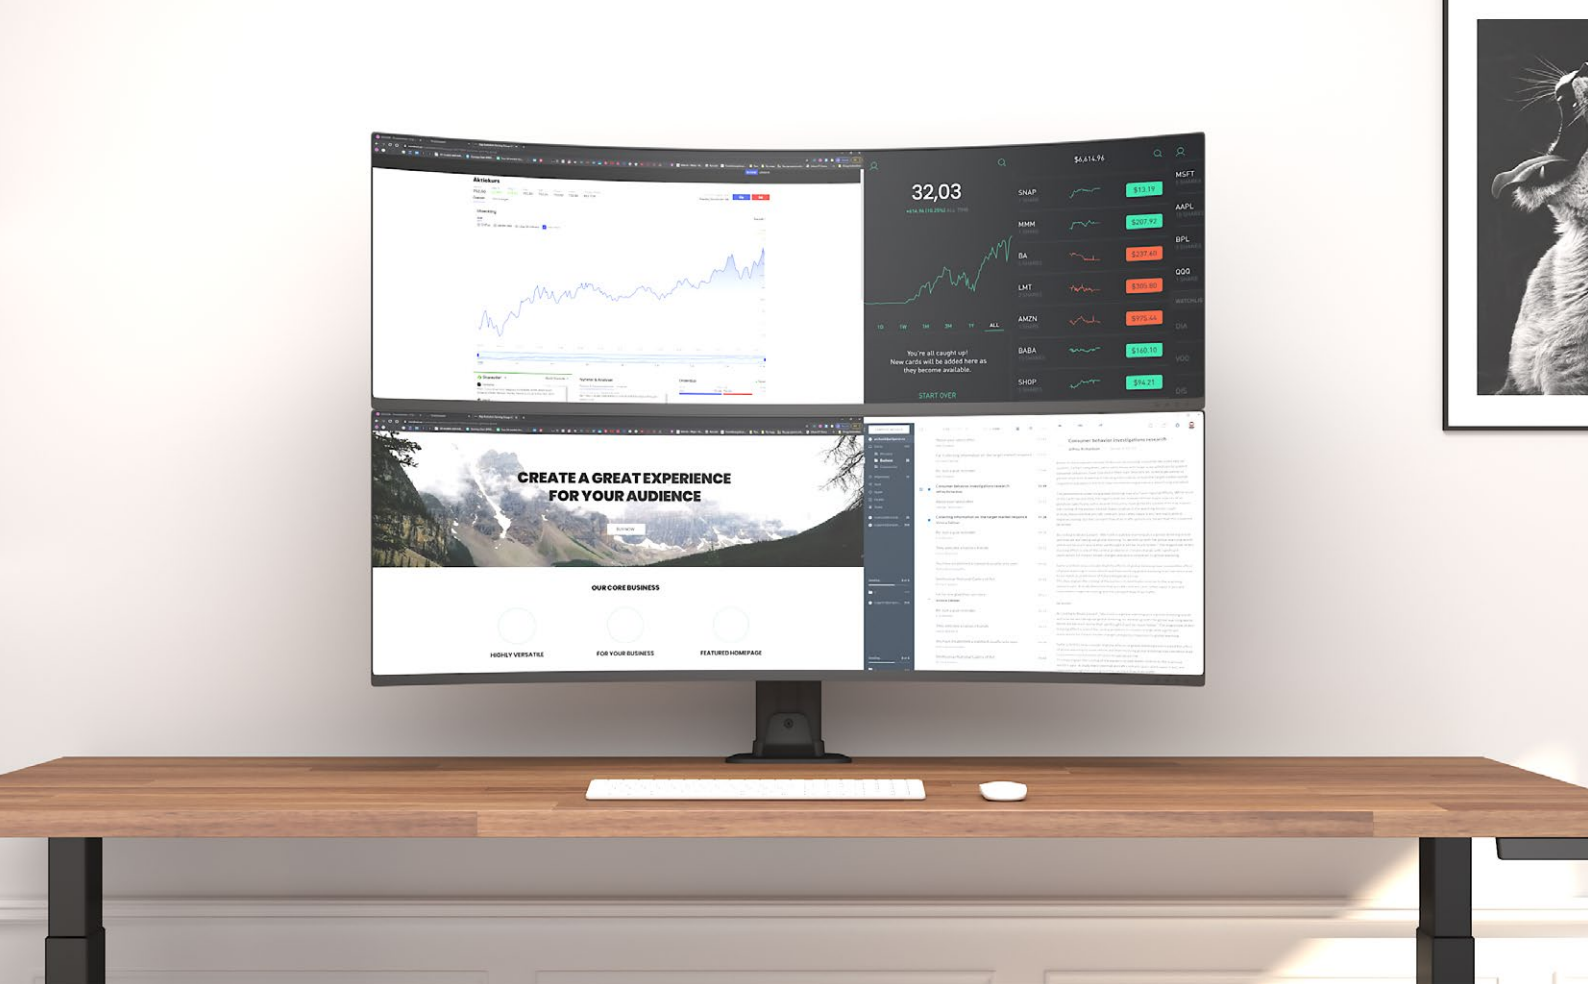

This is a height adjustable tabletop mount for large size displays with an ultra slim design. With the increasing demand for large size displays and video conference equipment and more focus on collaborative working, we introduced the M Deskmount XL Black.

Easily Mount 32"-55" Monitors or TVs to a Multimedia Table for Use in Conferences, Displays or Presentations. With support of interactive displays and other large size displays our mounts can attach quickly to most any surface and support for video conferences or training, group discussions or presentations in offices, especially in huddle rooms. CABLE SOCKS ELEGANT RESISTANCE FOR DELICATE CABLES

Versatile, with flexible properties Cable Socks gives abrasion resistance for delicate cables.

Leaving delicate cables exposed to the outside elements puts them at risk of costly abrasive damage and UV degradation. Adding Multibrackets cable sock solutions to cables in high traffic or high friction areas will help extend cable life and save you money down the road. Unlike traditional braided sleeving or wire loom, these cable socks install easily with no special tools or endless sliding. Our unique colour options also allow colour coding and easy identification of cable infrastructure. A good choice for AV cables, computer cables (inside and out), server halls, datacentres optical cables (5mm version), hospitals, hotel rooms and anywhere else one might need high quality cable socks. Our Cable Socks are also fire retardant.

HIGHLIGHTS

- Expands easily to ensure complete coverage and protection.
- Offers general protection from abrasion, chemicals and temperature for optimal protection.
- Available in various sizes and colors.
- Designed to adjust and expand to irregular shapes.
- Keeps its flexibility under a wide range of temperatures and over time.

25m rolls!
